

# Composition du portefeuille de l'Ircantec

---

31 décembre 2023

Dans un souci de transparence et en complément de son [rapport de durabilité](#), l'Ircantec s'est engagée à publier annuellement l'ensemble des valeurs détenues en portefeuille via ses fonds dédiés. Cet engagement s'inscrit dans le cadre du renforcement des objectifs climatiques de l'Ircantec adoptés en octobre 2021.

Face à l'urgence climatique, l'Ircantec a renforcé ses engagements en octobre 2021 afin d'inscrire les investissements de ses réserves dans une trajectoire de réduction des émissions de CO<sub>2</sub>, compatible avec un scénario 1.5°C et en cohérence avec les projections du Groupe d'experts intergouvernemental sur l'évolution du climat (GIEC) et de l'Agence internationale de l'énergie (AIE). Cela s'est traduit notamment par le renforcement de l'exclusion des énergies fossiles en vue d'une sortie en 2030 qui a été approuvé par son Conseil d'Administration le 21 octobre 2021.

A partir de 2024, de nouveaux seuils d'exclusion sur les énergies fossiles sont rentrés en application, afin de s'aligner pleinement sur la méthodologie des « *Paris Aligned Benchmark* » :

- Exclusions des entreprises qui tirent plus de 10% de leur CA du pétrole ;
- Exclusions des entreprises qui tirent plus de 50% de leur CA du gaz.

A noter que des exceptions sont prévues pour les entreprises disposant d'un plan crédible de réduction des émissions compatible avec un scénario 1,5°C et validé par la « Science-Based Target Initiative ».

L'Ircantec s'engage également :

- À désinvestir de toutes les entreprises initiant de nouveaux projets conventionnels (exploration, production, transport) ou contribuant (équipement, services) au développement de nouveaux projets ;
- À désinvestir de toute entreprise dont la production est liée aux énergies non-conventionnelles<sup>1</sup>, et ne s'étant pas engagée sur un plan crédible de sortie.

En 2030, l'Ircantec s'engage à ce que son portefeuille atteigne une exposition nulle vis-à-vis de toute entreprise du secteur pétrole et gaz qui n'aura pas adopté un plan crédible de réduction des émissions, compatible avec un scénario 1,5°C.

De plus, les sociétés de gestion bénéficiant de la délégation de gestion des réserves de l'Ircantec disposaient d'un délai courant jusqu'à la fin du premier trimestre 2024 pour appliquer ces nouveaux seuils, afin d'être conforme aux nouvelles exigences de l'Ircantec. Cette conformité a mené à la vente de 8 titres<sup>2</sup> au sein du portefeuille de l'Ircantec, pour un montant de 48 millions d'euros. A noter qu'une première phase de désinvestissement avait été menée en 2022 et avait conduit à désinvestir de titres de 12 sociétés.

Enfin, la société ENGIE a été mise sous surveillance mais néanmoins maintenue en portefeuille bien qu'elle ne soit pas totalement alignée avec les différents seuils et objectifs de la nouvelle politique climat de l'Ircantec. En effet, depuis 2018, en qualité de co-leader au sein de l'initiative de Climat Action 100+, l'Ircantec poursuit son engagement spécifique et constructif avec ENGIE afin que l'entreprise veuille à viser un alignement 1,5 degrés. Ainsi, l'Ircantec continue ce dialogue dans un objectif d'une plus grande transparence sur la trajectoire climatique de l'entreprise ainsi que sur le respect des engagements net zéro à l'horizon 2045.

<sup>1</sup> Pétrole et gaz de schiste, pétrole extra-lourd, gaz de houille, sables bitumineux, gisements en Arctique ou en eaux profondes

<sup>2</sup> Il s'agit des titres émis par les sociétés A2A SPA, Enagás Financiaciones, Kongsberg, National Gas Transmission, Nederslande Gasunie, Neste, SNAP SPA, Technip Energie

# Composition du portefeuille de l'Ircantec au 31/12/2023
